

Dear Future Self,

I hope you are doing great in life and enjoying your time too! I wanted to take a moment and write down some dreams I currently have, so that you can evaluate where we've come on that path. My dreams and goals in life are:

---

---

---

---

---

---

---

---

I know it's not easy turning these dreams into a reality (and I may have newer or better dreams and goals later on) but I do believe that with strong faith, hard work and patience they will come true, God willing. There will be obstacles that I will face like:

---

---

---

---

---

---

---

Some of these you may be facing now, but please don't give up! And if you already passed these obstacles and achieved your goals then good for you, I'm proud of us!

Whatever happens, I know that God is there to help me always and I will do my best to excel in life!

All the best,

Me, \_\_\_\_\_
